

# PATRYK NIEWCZAS FOR PRESIDENT

Since arriving at this college last year I have learned to love this place, the people and the lecturers. However, there are many underlying problems especially with funding cuts and welfare for students and that's why I want to play my part as a future president of ECSA to make sure that our college is the best it can possibly be.

As the president I will work tirelessly with elected officials in parliament as well as the employment sector to maximise student prospects upon completing their course and funding for students while at college. As a working class student studying my HNC in social sciences I have learned just how much funding policies can affect a student's quality of learning while at college, in extreme cases some students are even forced to drop out as the funding they receive is simply inadequate. As President I will fight to ensure that all students get the necessary support they need to build a prosperous future for themselves.

I will also ensure that every student has a sense of belonging and is fairly represented by the student union both inside and outside college. I will be the most easily accessible student president there has ever been and I will make sure that students get their bursaries on time, decent quality housing and academic help they deserve.

We can be proud of this cohesive and inclusive educational environment which caters to the needs of all students regardless of age, gender, sexuality, race or socio-economic background. I vow to keep striving for equality and to build upon the strong foundations we have by working with liberation groups. I will be the people's president promising to seize the means of education. Learners of the world unite we have nothing to lose but our bursary.
